Why Choose Class?

Class is a full school administration software suite, well tested and reputable

Class is constantly revised, enhanced and updated, for ALL users

Class offers integrated finance and documentation and a full report generator

We have a four-person support team as well as systems engineers and technicians to cover all aspects of the installation and the running of Class

Class Web allows your website to integrate with Class for students, agents and host family on-line access

Over 250 schools worldwide use Class

Class works! Do you really want to build your own system?

I would like: an online demo to receive more information
